

Hall 35 is an open, industrial-style space on the lower level of the South Halls. It regularly hosts exhibitions, trade fairs, and a variety of unique, innovative events. The ceiling structure offers a wide range of possibilities for hanging and partitioning the area, allowing for flexible use of the space. A comprehensive network of channels facilitates the installation of electrical, water, and IT systems to suit a variety of needs. The space also benefits from several logistical access points, including one directly from the underground car park.
